Recommended cleaning supplies

Formula 409: all purpose cleaner and de-greaser for kitchen, walls

Softscrub: for the tub; apply cleaner with bristle brush, let sit for 10 mins., use brush to scrub off. May need to follow up with vinegar to remove hard water build up holding in stains.

Vinegar: removes hard water build up; use on sinks, faucet handles and tub/shower. Spray on, leave 10 mins. Then scrub off with bristle brush.

Baking soda: for burnt food and yellow oil splatters on stove, backsplash. Sprinkle on area, use a damp rag to make a paste and scrub. Add more baking soda to rag as needed.

Window cleaner and paper towels: essential to get windows, mirrors streak-free.

May need to repeat if oily build up. Use a fingernail to scrape mascara or other residue.

Oven Cleaner: (if you have the oven and it doesn't have a self-clean function; usually at least one can under the kitchen sink) READ THE INSTRUCTIONS, many require baking on to work. Make sure you don't overspray on cabinets or oven cooking element. You MUST wipe out after oven cleaner application AND self-clean.

Toilet bowl cleaner and toilet brush: be sure to scrub water line and underneath upper rim.

If you have a severe black/orange ring you will need an additional cleaner like vinegar or Pretty Potty.

Mr. Clean Magic Eraser: for scuffs, fingerprints and grunge along grab-edge of doors and walls

Hard bristle brush: scrubbing tubs and floors

Wash cloth: general cleaning rag; also helpful to have a mop bucket of hot water and Lysol or Pine-Sol

Toothbrush: scrubbing tight areas around faucet handles and drains and fan/vent covers

Clean it even if it isn't listed. Thank you for leaving the apartment clean.

Wiping with a cloth doesn't make it clean. You may need to scrub several times and/or use a different cleaning product. Rinse the cleaner off...look AND feel for residue. Cleaners must be hired to rinse residual cleaning products.
